

C O N T E N S

ENERGETICS

VAFIN D.B., SADYKOV A.V., BUTYAKOV M.A. Effect of number of tiers grazing burner flameat heat and mass transfer parameters in the firebox tube furnaces.	3
CHERNYSHOV M.O., DOVGUN V.P., MALOSHENOK O.E. Hybrid power filters for three-phase four-wire systems.	11
KASHAEV R.S. Preparation of the water-fuel emulsions in the rotating magnetic and inhomogeneous electric fields with the process control by method of NMR-relaxometry.	20
ZVEREVA E.R., ZUEVA O.S., KHABIBULLINA R.V., KHATMULLINA Z.F., DREMICHEVA E.S. Improving of boiler fuel quality by additives.	27
NOVIKOV M.V., KHRUSTALEV V.A. Efficaciousness offpick power supply input electrical drive GPU in regions with high fraction NPS.	37
KARTASHOVA A.A., NOVIKOV V.F. Determination of furan compounds in transformer oil by gas chromatography with new sorbents.	46
GRACHEVA E.I., NAUMOV O.V., SADYKOV R.R. Accounting losses of idling of transformers in the period of exploitation at calculation losses of the electric power in distributive networks.	53
NIZAMOV L.A., CHICHIROVA N.D. Software package for optimization of modes of thermal power plant.	64

ENERGY, METALLURGICAL AND CHEMICAL ENGINEERING

PLOTNIKOV L.V., ZHILKIN B.P., BRODOV Y.M. The consideration of processes non-stationarity in gas tract of the internal combustion engine.	75
GERASIMOV V.V. Identification of Cementite Newgrowths Near Triple Boundary Grain Intersection in Spheroidized Heat-resisting Pearlitic Steel.	82

ELECTRICAL ENGINEER

AFANASIEV A.J., MAKAROV V.G., YAKOVLEV Y.A., KHANNANOVA V.N. Adaptive system of identification of parameters of asynchronous three-phase motor.	90
--	----

PHYSIC

VIDIN Y.V., ZLOBIN V.S., IVANOV D.I. To the calculation of heat exchange at laminar fluid flow in a plane channel.	100
PANIN V.F., PISKUNOV M.V., STRIZHAK P.A. Experimental study on evaporation behavior of water droplet with metallic inclusion.	106
VERGUN A.P., NEE A.E., NURPEIIS A.E. Numerical analysis of the filling ratio impact on the heat transfer intensityin a two-phase closed thermosyphon.	114

FOR DEFENCE OF THESISSES

KARTASHOVA A.A. NOVIKOV V.F. Thin-layer chromatography as a method of control furan compounds in transformer oil.	122
--	-----
